-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept.

The species are as follows:

- (1) a magnetic separator with an inlet opening for admitting and aligning misaligned workpieces;
- (2) a magnetic separator having a view port for enabling viewing of the passage;
- (3) a magnetic separator with an adjustment mechanism for adjusting the vertical position of the upper guide plate from the lower guide plate; and
- (4) a magnetic separator with a specific magnetic pole arrangement.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3742

2. The claims are deemed to correspond to the species listed above in the following manner:

(1) Claims 1-10, (claims 19, 27, 36 and 44 will be examined together but need to be rewritten in independent form);

(2) Claims 11-19, (claims 7, 24, 34 and 43 will be examined together but need to be rewritten in independent form);

(1) Claims 20-27, (claims 8, 16, 28 and 42 will be examined together but need to be rewritten in independent form); and

(2) Claims 28-45, (claims 9, 10, 17, 18, 25 and 26 will be examined together but need to be rewritten in independent form);

The following claim(s) are generic: none.

3. The species lack the same or corresponding special technical features for the following reasons: Each group is directed to a magnetic separator having a different and distinct feature, that is, (1) an inlet opening for admitting and aligning misaligned workpieces; (2) a view port for enabling viewing of the passage; (3) an adjustment mechanism for adjusting the vertical position of the upper guide plate from the lower guide plate; and (4) a specific magnetic pole arrangement. Each of the groups does not rely on other features in the other groups for patentability.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip H. Leung whose telephone number is (571) 272-4782. The examiner can normally be reached on Flexible.
